- Create and manage backup profiles and schedules - Backup file to disk and to the cloud - Easy to use - Fully customizable - Free version available for personal use (5 directories can be backed up) Features: - Create and manage backup profiles and schedules - Backup file to disk and to the cloud - Easy to use - Fully customizable Users reviews:- Wayne - 28/10/2018 It is easy to use. The options are presented very clearly and you get an option to view a list of all your backed up files or a breakdown of the files that have been backed up and the number of hours that they are backed up for. - Steve - 25/10/2018 Easy to use and work excellent on my old MacBook. - Kimberly - 24/10/2018 I had no idea how to backup my iPhone. Once I learned about FilesAnywhere, it was a breeze to get set up. I then created a personal backup profile and scheduled a backup to be run hourly. Everything I wanted to back up was selected and the program then copied my selected folders to my Dropbox account. From there I could open the folder from the Dropbox app and it would open the folder I had backed up to. - Alaine - 11/10/2018 Works a treat. The program is very well organized. It's not difficult to set up and the user guide was very helpful. - Hans - 09/10/2018 It is very simple to set up and I love the fact that I can see a breakdown of the files that have been backed up and how much time they have been in the cloud. - Mike - 08/10/2018 Works very well, but it only works on Mac OS X. If you are running Windows, unfortunately you cannot use this program. - Craig - 05/10/2018 Great program, but it would be better if you had other languages than English or Chinese. - Tommy - 04/10/2018 It works with the majority of my applications and it's very easy to use. - Tommy - 25/09/2018 Very good product, however I would like to see more languages. It is great that I am able to back up files which I import into my mac. I was very pleased with this program, but I found the lack of other languages a bit
